PROFESSIONAL EXPERIENCE

Frontend Developer   2023/11 – present | London, UK (Remote)
Deventral Ltd ✐
• Single-handedly architected and developed the frontend of an **AI-powered** internal tool builder platform using **React** and **TypeScript**
• Implemented **Microsoft Teams** integration using **@microsoft/teams-js** and **MSAL authentication**
• Designed and built complex data visualization and analysis tools using **Fluent UI**, **AG Grid**, and **Plotly.js** for interactive charts
• Established robust state management and **API integrations** using **Redux Toolkit** and **React Query**
• Managed project lifecycle and tracked development progress using **Azure DevOps**, including work item management, code reviews, and version control
• Optimized application performance using **Vite** build system and **LightningCSS**
• Set up error tracking and source map management with **Sentry** integration
• Implemented customer support system through Intercom integration
• Maintained code quality through **ESLint** and **TypeScript** strict mode

Mobile App Developer (Personal Project)   2025/08 – Present
Posture Good - iOS Application ✐
• Developed and published a health & wellness iOS application using **React Native** and **Expo**
• Successfully published on **App Store** with positive user feedback and active user base

EDUCATION

MSc, Software Engineering   2023 – present
Bandırma 17 Eylül University ✐

BSc, Industrial Engineering   2017 – 2021
Karabük University ✐

COURSES

Trendyol Backend Bootcamp   2023/09 – 2023/10
Trendyol

Frontend Developer Bootcamp   2023/02 – 2023/08
Re:Coded

SKILLS

Programming Languages
JavaScript/TypeScript, React, Next.js, HTML, CSS/SCSS/SASS, React Native, Node.js

Frontend Development
React, Redux Toolkit, React Query, Next.js, Component Architecture

UI Libraries
Fluent UI, Material UI, Shadcn/UI, Tailwind CSS, AG Grid, Plotly.js

API Integration
REST APIs, HTTP/HTTPS, Axios, API Authentication

State Management
Redux Toolkit, React Query, Context API

Tools & DevOps
Vite, Bun, ESLint, Git, Azure DevOps (Work Items, Pipelines, Repos)

Cloud & Authentication
Azure AD, MSAL, Microsoft Teams Platform

Data Visualization
Plotly.js, AG Grid Enterprise, Interactive Charts

Project Management
Agile Methodologies, Azure Boards, Work Item Tracking

Languages
English (Professional), Turkish (Native)

Interests
Modern Web Architecture, UI/UX Design, Web Performance Optimization, Mobile Application Development
